## PROGRAMMATIC EVANGELISM

## ASSOCIATIONS

# The Company We Keep

# The Benefits of Programmatic Audio

---

# Audio Plays Many Roles

- Bring Back Memories
- Entertain
- Community
- Educate
- Audio Travels Light - It Moves with the Consumer

## Audio allows consumers to fully immerse themselves in your brand:

- Mobile First Medium
- 1:1 Brand to Listener Experience
- Largely Non-Skippable
- Minimal Ad Blocking

## Audio Has the Power to Make You Feel Something

“Because we take music with us wherever we go and because it is the soundtrack to memorable life experiences, digital audio has a unique power to forge lasting emotional connections with consumers.”

*Source: The Drum, March 2017. Why audio advertising could be your campaign's secret weapon.*

“... ad recall is significantly higher among audio (74%) than TV (65%) in a contextually relevant environment.”

*Source: GeoMarketing, March 2018, Pandora Pitches 'Audio Context': Why Your Ad Recall Is Higher When You're Eating*

# What Does This Mean for Marketers and Agencies?

- Mobility creates a personal connection on a global scale
- Apps 'exist' with their consumers and engage with them throughout their day
- Powerful connections with engaged audiences + rich data for targeting: A marketer's dream.

# A Complimentary Channel

- Print + Web
- TV + Video
- Audio is complementary to multi - channels (Video, TV, Web, Mobile, Outdoor) etc...

# Reasons to Add Programmatic Audio to Your Marketing Mix

---

- Brand safe publishers
- A powerful complement to other programmatic channels
- Highly engaged audience – strong ad recall
- Listener level targeting
- Data rich channel

# PROGRAMMATIC AUDIO

---

# Brands in Digital Audio

# OPERATIONS & STRATEGY

---

# Programmatic Audio

Triton Digital strives to make buying programmatic audio as normal as display or video

## The Difference

The Creative is Audio

- Sometimes with a companion banner
- Often in a mid-roll break of 3-5 minutes of other ads
- Shorter breaks for On-Demand publishers (1-2 ads)
- Audio burnout happens with frequency - vary your creative often

Devices

- Smart Speakers (Amazon Echo or Google Home like devices)
- In Car (Apple CarPlay or Android Auto)
- Mobile
- Desktop

# Measuring Results

Track Everything.

Sold on Impressions - Measured by data

- Understand the client KPI and how audio contributes
- Ensure all internal and trackers align for client needs
- Capture as much info as possible about the auction and listener in every exposure
  - Mobile Advertising ID
  - IP Address
  - Location
  - User Agent

Triton Digital has Macros available to assist in capturing critical data points:  
<http://info.tritondigital.com/a2x-supported-macros>

# Audio Tracking

- Most Streaming Services have Trackers Fired Server Side by Triton Digital
- Those Publishers with Advanced Players Can Fire the Trackers at The Player Level (Still the Minority)
- Information About the Listener is sent in the Bid Request for Targeting as well as “X-Forward” Header in the Impression. Both can be worked into External Tracking Systems
- Server Side sends All Listener GEO related Information (Including Zip/Lat/Long in Request)
- Bid Requests can Include: Publisher; Station; Genre; Content Language; Domain; User Agent; Listener ID (Cookie or Mobile Ad ID); IP; Device Type; Connection Type; Long./Lat.; Region; Metro; Postal Code; Device OS

# Strategy

---

- Research the audience and set expectations
- Reach the right listener
- Target by the criteria you do today
  - Geo
  - Device
  - 1st or 3rd Party Data
  - Retargeting
  - Wifi/Cell Signal
- At the right time with daypart
- In the right content such as sports, news or music format
- With the right message with call to action
- Deliver results

# Idea Starters

Target multiple points in the sales funnel to move a listener through process

Retargeting listeners based on advertiser data

Dynamic Creative from companies like F# or A Million Ads

- Creative built at time of auction
- Listener focused based on location, daypart, content
- Sequential creative
- Retargeting

Voice enabled advertising on smart speakers or mobile

Event data targeting around weather, TV, sports

# Audience Insights & Packaging

Maximizing the Intrinsic Value of Every Listener

Acknowledging that audience insights and enrichment strategy fuels the intrinsic value of audio inventory, our technology is fully compatible with every type of audience management and enrichment platforms:

- Registration-based
- Cookie-triggered
- Mobile Advertising ID triggered
- IP-derived
- Long./Lat. derived
- Content inferred
- PII/email hashed triggered
- Lookalike: from statistical to deep learning models

*We are agnostic in term of vendors, strategies, and offer a genuinely unbiased integration, not charging for data activation nor offering any brokering data segments services, working only for the benefits of the publishers.*

Ad Calls

A young man with brown hair and a beard is shown in profile, smiling and looking at a tablet device. He is wearing large black over-ear headphones and a dark blue cable-knit sweater over a light blue collared shirt. He is sitting outdoors, with a blurred background of greenery and a person in a white shirt. The overall mood is positive and relaxed.
